## Eastfield Primary School

### Food and Drink in School Policy

For the safety of all pupils at Eastfield Primary School any food or drink brought into School for consumption by any other pupils must not be distributed to other pupils to be eaten on School premises. Any such items must be sent home with the child for clarification / permission by their parents.

If lessons involve the tasting or making of food and drinks teachers should always write to parents in advance to gain permission for their child to take part in the activity.
