

## EASTFIELD PRIMARY SCHOOL

### MEDIA POLICY

During the course of each year there are certain occasions when the Hull Daily Mail, for example, will visit the school to photograph pupils in connection with events / activities which have taken place. We also need to photograph groups of our children engaged in various activities to be included in our school website information and prospectus (no pupils would be named on this).

The school policy is that a child's photograph may be used in this way unless we are in receipt of a signed letter from parents stating you do not wish for your child's photograph to be used in this way.
