Dear Chris,

I am writing to thank you for all of the fun activities and the new challenges that I have not experienced before. You made them more exciting than the beaver jive.

Firstly I would like to say my most favourite activities was crate challenge, you made it so fun and funny as you took other peoples crates away so they only had 3 stacks of crates to stand on. You also made it funny as you pretended to be different danger zones, like Earthquakes, dangerous bulls or tsunami.

Another of my favourite activity was the climbing wall, Gladiator wars. Each teams did extremely well but naughty knives just pipped us. We all raced up the wall, punching cute things.

Without You Hill Group wouldn't of been the same!

Yours Sincerely Megan Cromack (aka Megan Moo Moo)
