Dear Naomi,

I am writing to you to say a massive thankyou for all the things we had experianced I faced all my fears especillay Piranha pool and Trapeze. Because now I know that someday I'll end up doing some of these wonderful activities.

Firstly I loved the Gaint Swing. I was very nervous at it because the swing looked so high. I was scared because me and Dennika had to go first, and we weren't so sure, but after we finally managed to chop the banana, we flew straight into the air and it was so exhilarating. My emotions were all mixed together.

I also liked the Piranha pool even though I had to go last which at first I thought it was ok but then I fell in. I enjoyed cracking the codes and locks it was WICKED!

Say a big thankyou to everyone else at Robinwood even the chefs and say one too Spud too. Thanks again
